

Bunny Bows

1.

2.

Step 1: Lets start with the ears. Your going to want to cut four pieces of ribbon four inches long. Two white for the outside of the ear and two pink for the inside. I used 3/8th inch grosgrain ribbon.

Step 2: Loop them around and glue them together.

3.

4.

Step 3: Next we're going to make the bunny belly. Cut six pieces of ribbon, one of each of these measurements: 6 inches, 5.5 inches, 5 inches, 4.5 inches, 4 inches and 3.5 inches. If you don't want to make such a full looking belly you could just do three pieces of ribbon, one 3.5, 4.5 and 5.5.

Step 4: Loop your ribbons around and hot glue them at a right angle on each other.

5.

6.

Step 5: Glue your belly layers together. Line a hair clip with ribbon.

Step 6: Start assembling your bunny. Glue the ears and belly to the hair clip.

7.

8.

Step 7: To make the face, take a 2.5 inch piece of ribbon and loop it around like you did the belly pieces. Flatten it out and put glue in the corners that overlap.

Step 8: Glue the face onto your bunny, add a pom-pom nose, googly eyes, and a little bow-tie. Your done!
