

Butterfly Bows

Step 1: Cut two pieces of ribbon 8.5 inches and two pieces 6.5 inches. I used 3/8th inch grosgrain ribbon.
 Step 2: Line a hair clip with ribbon (you can get them at Sally Beauty Supply). Then take your 8.5 inch piece of ribbon and fold it in half. Pinch it in the middle and that way you know where the center of the ribbon is. Hot glue the center of the ribbon to the hair clippy.

Step 3: Now take the ends of the ribbon and loop them around and glue them down. So that's the top half of your butterfly

Step 4: Now do the same thing to make the bottom half of your butterfly with the 6.5 inch piece of ribbon.

Step 5: Loop the bottom around to make the bottom butterfly wings.

Step 6: Now take your sheer pieces of ribbon and glue them over the top of the other ribbon. This makes the wings look fluttery.

Step 7: Now let's make the body. Take about seven inches of ribbon and wrap it around a dowel. A preschool pencil works good too if you don't have a dowel on hand. Put it on a baking sheet and bake it at 275 degrees for 20-25 minutes.

Step 8: Cut your bodies to the right size and glue them down the middle.

Step 9: The very last step is to make antennae. Cut off a one inch piece of ribbon and then cut the edges off. Hold the edges over a flame and it will make them curl over. Glue them on to the top of your clip and your all done!
